

2004

19TH YEAR ANNIVERSARY

COMPUTER-AIDED CIVIL AND INFRASTRUCTURE ENGINEERING

EDITOR-IN-CHIEF
Hojjat Adeli

AIMS & SCOPE

Computer-Aided Civil and Infrastructure Engineering is a scholarly peer-reviewed archival research journal intended to act as a bridge between advances being made in computer and information technologies and civil and infrastructure engineering. It provides a unique forum for publication of original articles on novel computational techniques and innovative applications of computers. The journal focuses on recent advances in computer and information technologies and fosters the development and application of new and emerging computing paradigms and technologies.

The scope of the journal includes bridge, construction, environmental, highway, geotechnical, structural, transportation, and water resources engineering, and management of infrastructure systems such as highways, bridges, pavements, airports, and utilities. Areas covered by the journal include artificial intelligence, cognitive modeling, concurrent engineering, database management, distributed computing, evolutionary

computing, fuzzy logic, genetic algorithms, geometric modeling, internet-based technologies, knowledge discovery and engineering, machine learning, mobile computing, multimedia technologies, networking, neural network computing, optimization and search, parallel processing, robotics, sensor technology, smart structures, software engineering, virtual reality, and visualization techniques.

TYPES OF ARTICLES PUBLISHED IN THE JOURNAL

- Major original contribution
- Short original contribution
- State-of-the-art review article
- Novel industrial application
- Computers in education

Recent and Forthcoming Special/Theme Issues:

- Object-Oriented Systems
- Structural Control and Smart Structures
- Geographic Information Systems
- Intelligent Transportation Systems
- Machine Learning
- Life Cycle Management of Infrastructure Systems
- Fuzzy Modeling
- Automation and Robotics in Construction
- Health Monitoring of Structures
- Computer-Aided Bridge Engineering
- Artificial Intelligence, Genetic Algorithms, and Neural Networks
- Collaborative and Concurrent Engineering
- Neural Networks in Highway and Vehicle Engineering
- Smart Civil Infrastructure Systems
- Sustainable Civil Infrastructure Systems
- High-Performance Computing
- Automated Data Capture Technologies
- Wavelets

SPECIAL ISSUES

Blackwell Synergy

COMPUTER-AIDED CIVIL AND INFRASTRUCTURE ENGINEERING IS ONLINE AT BLACKWELL SYNERGY!

WWW.BLACKWELL-SYNERGY.COM

Sign up to receive Blackwell Synergy free e-mail alerts with complete Computer-Aided Civil and Infrastructure Engineering tables of contents and quick links to article abstracts from the most current issue. Simply go to www.blackwell-synergy.com, select the journal from the list of journals, and click on "Sign-up" for FREE email table of contents alerts.

BLACKWELL PUBLISHING ORDER FORM

Please enter my subscription to **COMPUTER-AIDED CIVIL AND INFRASTRUCTURE ENGINEERING** (Subscription begins with first issue of volume)
ISSN: 1093-9687, Volume 19, 2004, 6 issues per year.

2004 SUBSCRIPTION RATES (circle one)

	The Americas*	Europe	Rest of World**
Institutional: Print & Premium Online	\$782.00	£574.00	£574.00
Institutional: Print & Standard Online	\$711.00	£522.00	£522.00
Institutional: Premium Online	\$675.00	£496.00	£496.00
Personal	\$103.00	€108.00	£92.00

Institutional subscribers:

A **Premium Online** subscription offers ongoing online access to all available volumes, for as long as Blackwell continues to publish the journal, with off-site access for members of the institution. It is available with or without the print version.

A **Print + Standard Online** subscription includes the print version plus online access by users on-site to the current and previous volume for as long as the subscription is maintained.

Canadian residents must add 7% GST. Our GST number is 130130412RT. All customers in the UK should add 5% VAT to these prices for print+online, 17.5% for online only. EU customers should also add VAT at these rates, or provide a VAT registration number of proof of entitlement to exemption.

No refunds of subscriptions will be made after the first issue of the journal for the year has been mailed. Please allow 4-6 weeks for delivery of print issues. Prices are subject to change without notice. We may in future send you information on relevant forthcoming publications by mail or e-mail. If you do not wish to receive these mailings, please check the box(es). no e-mail no mail

EDITOR-IN-CHIEF

Hojjat Adeli, Dept. of Civil and Environmental Engineering and Geodetic Science, The Ohio State University, 470 Hitchcock Hall, 2070 Neil Avenue, Columbus, Ohio 43210-1275 U.S.A.; Email: adeli.1@osu.edu

ABOUT THE FOUNDER AND EDITOR-IN-CHIEF:

Hojjat Adeli is Professor of Civil and Environmental Engineering and Geodetic Science and Lichtenstein Professor of Infrastructure Engineering at The Ohio State University. A contributor to 60 different computer science, engineering, and mathematics research journals he has authored nearly 400 research publications, including 9 books, and edited 12 books since he received his Ph.D. from Stanford University in 1976. He has presented Keynote/Plenary Lectures at 49 national and international computing conferences held in 30 different countries and has organized or served on the advisory/editorial board of over 220 national and international conferences held in 51 different countries. He is the recipient of numerous awards and honors including, the **University Distinguished Scholar Award** given by The Ohio State University in 1998 "in recognition of extraordinary accomplishment in research and scholarship". He is also the quadruple-winner of the OSU College of Engineering Lumley Outstanding Research Award. In September 1998 he was awarded a United States patent for his neural dynamics model for design automation and optimization (jointly with a former Ph.D. student).
